

About Marcus Autism Center

Marcus Autism Center is one of the largest not-for-profit centers in the United States for the diagnosis and treatment of autism and related disorders, treating more than 5,300 children a year. The center is dedicated to improving early diagnosis, intervention and outcomes of children with autism through research and clinical care. The Marcus Autism Center staff of highly trained pediatric professionals is supported by research grants from the National Institutes of Health (NIH) and the Centers for Disease Control and Prevention (CDC).

The center relies on generous philanthropic support from donors, corporations, foundations and community leaders, as well as funding from local and state governments. Visit marcus.org for more information.

Tournament Proceeds

Proceeds from the Cottage for the Kids Golf Tournament benefit The Home Depot Marcus Hospitality Cottage. Marcus Autism Center has partnered with Atlanta Hospital Hospitality House (AHHH) and The Home Depot to develop this cottage for children and their families who need a place to stay while traveling to Atlanta for treatment at Marcus Autism Center or other local hospitals.

Funds from the tournament will provide maintenance for the cottage, including utilities, insurance, services and food. The cottage is energy-efficient, handicap-accessible and has four family suites and a kitchen in a safe, comfortable environment. The facility is managed by AHHH and provides guests with hearty, home-cooked dinners every night.

About Atlanta Hospital Hospitality House

Atlanta Hospital Hospitality House (AHHH) is a not-for-profit organization that has served the needs of more than 25,000 families and individuals during its 30-year history. Called the "House with a Heart," the AHHH helps the financially fragile navigate a family medical crisis by providing a home away from home for out-of-town family members of patients hospitalized in 21 Atlanta hospitals and medical facilities.

**As a not-for-profit organization, Marcus Autism Center produces materials in-house using the most cost-efficient paper and printing techniques.
